TPA with functional design

Glamox® | Heating

## Description

The 3001 TPA has a functional design to ensure that heat is quickly and evenly radiated into the room. Available in several versions from 400W to 2000W. Designed for use in homes and businesses.

### Minimum dust burning

Minimal dust burning due to the large surface cooling of the element. It has no sharp edges and has a smooth, durable surface. Protected against overheating. Cover over thermostat prevents accidental change of temperature (optional extra).

### Easy-clean surface

Can be easily detached from the wall bracket at the top and tipped forward to make cleaning easier.

## Technical Description

### Materials and paint:

Painted surface in white RAL 9016.  
Max. 90°C temperature on exposed surfaces.  
Overheating protection with automatic reconnection.  
Upper wall mounting can be detached and tipped forwards to simplify cleaning.

### Connection:

Supplied with cable and plug which can either be connected to the connection box supplied for fixed installation, or plugged straight into a socket.

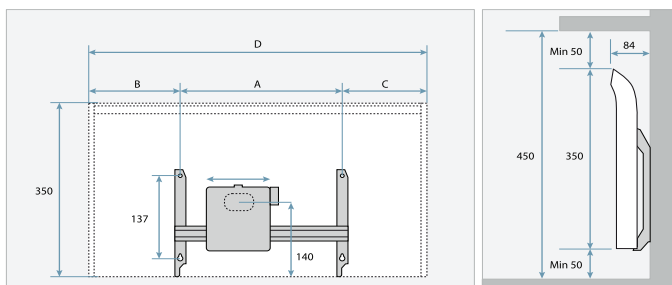

### Thermostat:

Suitable for "plug-in" thermostats which can be ordered separately.

### Installation:

Supplied with wall bracket for mounting on wall and connection box for fixed installation. Connection box can be moved sideways.
